Google Sheets

Publish select data directly into AEM pages

The Google Sheet component translates your data onto your pages in an accessible display and allows you to cherry-pick specific columns to show.

Features

- Automatic updates – changes reflected instantly
- Select columns to appear – automatically sortable
- Embedded sheet search
- Full Screen mode for easier viewing
- Save sheet or search results in excel or PDF
- Non-AEM users may edit content via Google Sheets

| Print | PDF | Excel | Show 10 rows |

Search:

First Name ▲	Last Name ⇕	State ⇕	Time ⇕
Abrahan	Seeman	FL	7:29 AM
Adelina	Udall	DC	10:36 AM
Alexio	Lacroutz	CA	4:06 AM
Alisha	Obispo	TX	8:00 AM
Alyss	Gavrielly	OK	4:12 AM
Amye	Adlam	IL	8:16 PM
Ana	Jepp	VA	4:58 AM
Arabel	Barkus	PA	11:37 PM
Ardelle	Schops	VA	10:15 PM
Bartholomeus	Fernier	NY	5:03 AM

Showing 1 to 10 of 100 entries

| Previous | 1 | 2 | 3 | 4 | 5 | … | 10 |

Pro Tips

- Remember to publish - sheets must be public
- The file, sheet and column(s) must be defined
- The "Table Header" field is the column title - they can be reordered as desired
- Hyperlinks do not show by default - use this template if hyperlinks are needed
- Alternatively, use the External component for a direct embed- useful for hyperlinks, charts and other visuals
- Setup can be slightly challenging to setup. If you need help, please submit a help ticket.

Visual Manual

Setup a Google Sheet to talk with AEM

The Google Sheets component must be configured carefully. General process is as below with more details following.

Note: Google updates their interface occasionally so steps may not always be accurate.

- Set Google Sheet sharing to 'Anyone with the link can view' .
- Publish your Google Sheet to the web.
- Configure the AEM component using information found on your Google Sheets.
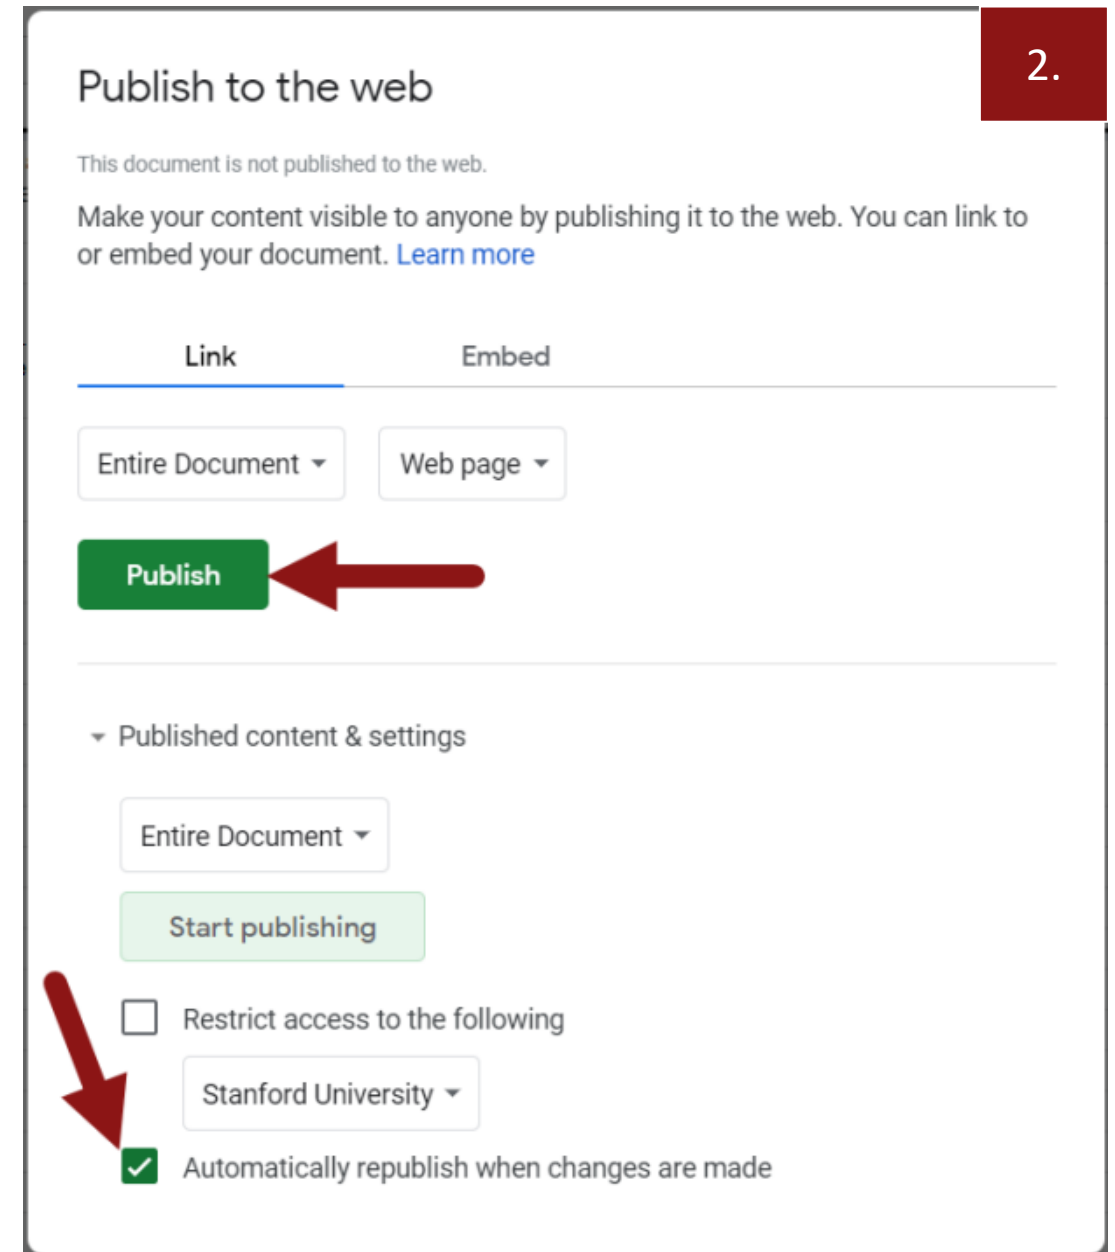

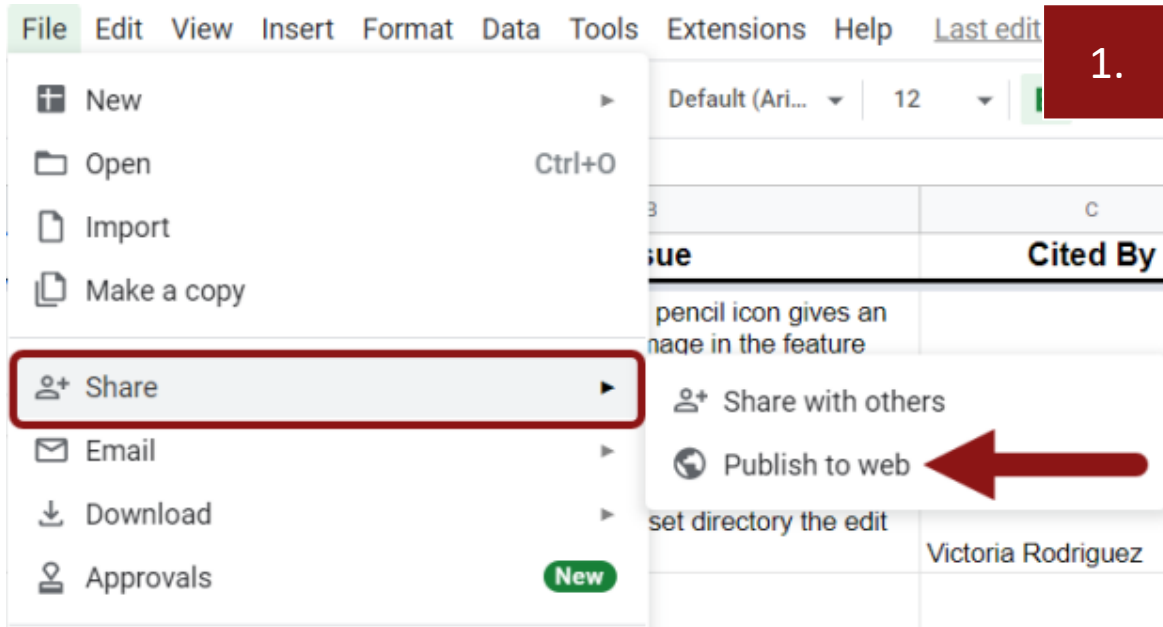

Google Sheet Setup pt.1

Set as Public

1. Under File, click Share > **Share with others**. Or click the green **Share** button in the upper-right.
2. Under Get link, ensure "**Anyone on the internet with this link can view**". Click Change if necessary. Note you can set this to edit to allow public editing.
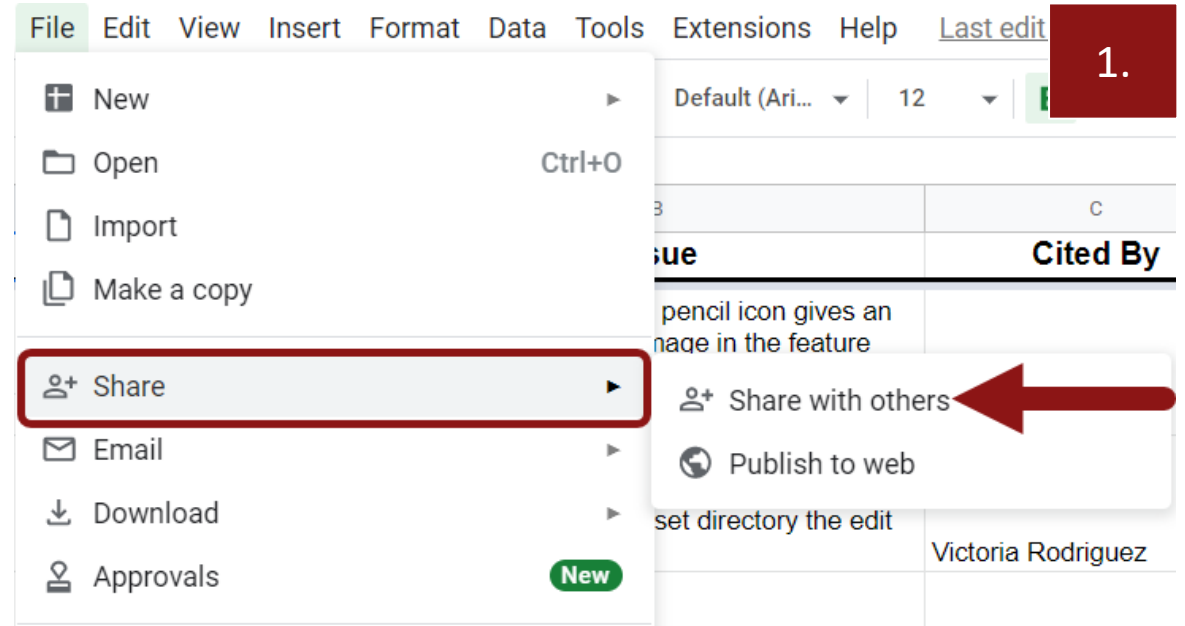

Google Sheet Setup pt.2

Publish your Google Sheet

1. Under File, click Share > **Publish to web**.
2. Click **Publish**. Default settings are OK, ensure
'Automatically republish' is selected.

Component Setup

Google Sheets   ⓘ   ⬜   ✕   ✓

A. Key of the Google Spreadsheet

You will find the key in the Google Sheet's URL. The key is the combination of numbers and letters found between the 'd' and 'edit' in the URL. You will find the URL in your browser bar. In the example below the key is highlighted in bold text.

A — KEY OF THE GOOGLE SPREADSHEETS*   ⓘ
