

Panel Builder

Panel Builders are the defacto component for authoring. Use them to create custom page layouts and enable the insertion of other components. Every page will have Panel Builders.

Features

- Drag-and-drop to create responsive page layouts
- Create new zones to add more components
- Various column layouts from 1x - 3x varieties
- Toggle background modes and colors (McKinley)

Add columns, borders, and backgrounds to construct page layouts

The diagram shows a hierarchical structure of Panel Builders:

- Panel Builder #1 | 100%** (Top Level):
 - A**: "Full-width" background spans page (Green bar at the top).
 - B**: A blue callout pointing to the green bar.
- Panel Builder #2 | 100%** (Nested):
 - A**: "Border and shadow" background defines edges (Orange bar with a drop shadow).
 - B**: A brown callout pointing to the orange bar.
- Panel Builder #3 | 50/50%** (Nested):
 - A**: No background option is transparent (Green bar at the top).
 - B**: A green callout pointing to the green bar.
- Panel Builder #3 | 50/50%** (Nested):
 - Panel #3 is nested in #2 | #2 is nested in #1 (Text indicating nesting levels).
 - B**: A grey callout pointing to the text.

Content within the panels:

- Panel #1: Placeholder text (Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.).
- Panel #2: Placeholder text (Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.).
- Panel #3 (Top): Placeholder text (Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.).
- Panel #3 (Bottom): Placeholder text (Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.).

Pro Tips

- Use columns to segment and group similar content
- Enable backgrounds to create visible 'tiles'
- McKinley template offers more background options, inc. color
- Subdivide panels by nesting other panels within
- Use the Content Tree and Parent tools to assist selecting deeply nested panels
