

Share Page

The Share Page component creates a visual list of links allowing visitors to quickly share the page to social platforms. Contrasted with the site masthead social option, which links to social media landing pages.

Features

- Opens a share tool for each platform:
- Email
- Facebook
- Twitter
- LinkedIn

Promote a page through social media & e-mail shares

Pro Tips

- Add to specific pages you'd like to organically promote
- Intended for homepages or pages of high interest
- Available as an embedded part of every [site masthead](#)
- Avoid adding to your 'Contact' page
